Communication via messenger

We bet to We use messengers for communication purposes and therefore ask therefore, the following Hints to Functionality of the messengers Encryption, for Use of communication metadata and to _ Your Possible objections to note.

You can also contact us on alternatives. Because, e.g. via telephone or email, contact. Please use those provided to you. Contact options or those within ours online offer specified Contact options.

In the case of end-to-end encryption of content (i.e., the content of their message and attachments), we indicate that the communication content (i.e., the content of the message and attached images) is encrypted from end to end. This means that the content of the messages is not visible to the messenger providers themselves. You should always use the current version of Messenger with end-to-end encryption activated. This ensures that the message content is encrypted.

We point out that our communication partner may also point out that the messenger providers do not see the content, but in practice they can see it and when our communication partner communicates with us as well as technical information for the device used by the communication partner and depending on the settings of the device, location information (so-called metadata) is also processed.

Hints to Legal basis: Provided we communicate with our communication partner before communication with them via Messenger, our asking for permission is the legal basis for processing their data. Their consent. By the way, if we do not ask for consent and get it from yourself, for example out of contact with us, we use Messenger in proportion to our contractual partners as well as in the context of contract initiation as one contractual measure and in the case of other interested parties and communication partners on a basis of our legitimate interests in a quick and efficient communication and meeting needs of our communication partner for communication via messenger. Furthermore, we point out that we do not communicate contact details without their consent to messenger for the first time.

Revocation, objection and deletion: You can at any time revoke your consent and communication with us via messenger at any time. Delete in the case of communication via Messenger we delete accordingly our general deletion policies (i.e., how described above after the end of the contract relationships, in the context of archiving specifications etc.) and otherwise, as soon as we can, any information from communication partners answered to have if no back reference to one previous conversation to expect is and the deletion of no legal retention obligations oppose.

Reserve the reference to others Ways of communication: Finally want we on it point out that we us out of Found Of their Security reserved, inquiries not via Messenger to answer. This is the case if, for example, contract internals special confidentiality need or one Answer via Messenger the formal one claims not is enough. In such cases refer we will guide you to more appropriate ones Communication channels.

- **Processed Data types:** Contact details (e.g. email, telephone numbers); Usage data (e.g. visited websites, interest in content, access times); Meta, communication and procedural data (e.g. IP addresses, times, identification numbers, consent status); Content data (e.g. entries in online forms).
- **Affected People:** Communication partner.
